

# ATTENTION FUTURE SCIENTISTS

Learn about environmental, earth & space science  
Perform science experiments & community outreach  
Receive community service credit  
Make new friends  
Acquire job skills  
Meet scientists

UC Davis Tahoe Environmental Research Center (TERC) and Space Science for Schools (SS4S) are offering a 15-week afterschool program starting January 28, 2008. With the **Youth Science Institute**, you will work with scientists, conduct science experiments, take a ride on the UC Davis research vessel, experience our exciting 3-D visualization lab and much more!

## Minimum Requirements:

- Complete application
- Must be currently enrolled in grade 9, 10 or 11
- Minimum 3.0 GPA
- Commitment to community service (100 hours available during year)
- Must pass interview/screening process
- Tuition of \$500 (full scholarships available)

## Benefits include:

- Learn new laboratory, leadership & job skills
- Work with scientists, researchers and graduate students
- Become a fully-trained UC Davis docent
- Opportunity to become a paid intern
- Receive scholarship assistance
- Fulfill required community service hours
- Receive certificate of completion & letters of recommendation

*See your High School Counseling Office for an application.*

For more information, contact: Heather Segale, UC Davis education and outreach coordinator, (775) 881-7562 or [hmsegale@ucdavis.edu](mailto:hmsegale@ucdavis.edu).

The Youth Science Institute is funded, in part, through a grant from the Parasol Tahoe Community Foundation.
